

## Angelbear One-Piece Pattern

Copyright Melanie Anne Smith November 2009-11-09

### Materials required

4 mm needles  
 DK wool (any variations of colour)  
 Black/Brown DK wool for facial features  
 Toy stuffing  
 Darning needle

NB: Please remember the pattern techniques are NOT a must. We would rather receive a bear knitted in garter stitch throughout than no bear at all. So if you are new to knitting just cast on the correct amount of stitches for each piece and knit the correct amount of rows. A jazzy plain knitted bear is just as exciting to a child as one knitted to the letter of my pattern. Provided the safety stipulations are followed on all bears there are no limitations placed on your bear. Every bear is an individual & that is how it absolutely should be!

### PLEASE READ THE SAFETY GUIDELINES BEFORE STARTING TO KNIT

#### To make up

Begin sewing from the feet upwards leaving one side of the head open. Invert bear and stuff firmly. Embroider facial features. Add more stuffing if required and sew gap firmly closed. Now run a running-stitch around the neck, pull, fasten off and ensure knot is deeply buried in the stuffing. This gives the neck clear definition.

#### Ears (Make 2)

Using two strands of yarn C/o 6 sts

Beg k row st-st 6 rows (Knit the final k row loose in preparation for the loop stitch)

- 7) Loop stitch across row
- 8) Knit (very loosely to allow for following loop row!)
- 9) Loop stitch
- 10) Knit (loose)
- 11) Loop stitch

Cast off

#### To make up

RS outermost this time, sew around 2 of the open edges. Add a little stuffing to give ears definition and sew gap firmly closed.

Sew ears onto the head.

One Angelbear completed. Well done!!
